

# SOTI<sup>®</sup> ONE

## ONE PLATFORM CONNECTING EVERYTHING

Business mobility is critical to the success of your company. More and more of your workers depend on mobile devices running custom business apps to do their jobs. But, what are your plans for tomorrow? How do you choose from the hundreds of new devices, IoT endpoints, platforms and protocols flooding the market? The wealth of options is enough to overwhelm you. And once you decide, once you make that commitment, you need everything to work together - devices, endpoints, apps and back-end systems. SOTI ONE brings it all together - connects it, simplifies it, and makes your business mobility smarter, faster and more reliable.

# SOTI ONE SIMPLIFIES YOUR BUSINESS MOBILITY

SOTI ONE is an integrated suite of mobility and IoT solutions. Each solution works on its own to solve today's toughest mobility challenges. But working together, SOTI ONE tears down mobility silos and connects everything: mobile devices, IoT endpoints, apps and back-office systems. When everything is connected, our integration, analytics and intelligence help you reinvent your business to meet the challenges of tomorrow. SOTI ONE keeps your workers working, builds your apps faster, and makes it easy to secure and manage your mobile devices.

# Many Solutions – ONE Platform

The era of desktop computing has ended. In its place, more and more companies are deploying mobile technology to empower their workers, improve customer engagement, and streamline their operations. # What SOTI ONE can do for your business

## **SOTI ONE** simplifies your business mobility

SOTI ONE is an integrated suite of mobility solutions. It delivers a superior user experience by enabling users to access one solution from within another. More importantly, SOTI ONE tears down your company's mobility 'silos.' and enables powerful, new workflows previously thought impossible.

## **SOTI ONE** keeps your workers working

SOTI ONE provides the industry's first support solution optimized for mobile devices. It enables IT staff to remotely troubleshoot and fix mobile device and app problems quickly and easily, even from their own mobile device.

## **SOTI ONE** creates apps faster

SOTI ONE makes mobile line of business (LOB) app development quick and painless. This rapid app development makes it easy to prototype new solutions, evaluate their performance and then modify and re-deploy.

## **SOTI ONE** manages all your endpoints

SOTI ONE builds on our proven industry leadership for mobility management solutions. In a few years, we can expect to see billions of new, connected devices, 'things' and endpoints. Your company may deploy thousands of new devices and endpoints, and SOTI ONE will continue to secure and manage them all.

## **SOTI ONE** makes things smarter

SOTI ONE helps you easily collect and combine data from your mobile devices, applications and IoT endpoints. It presents the data in a user-friendly way to give you visibility into your mobile operations and business intelligence to help you improve them.

**SOTI**

SOTI is a proven innovator and industry leader for simplifying business mobility and IoT solutions by making them smarter, faster and more reliable. SOTI helps businesses around the world take mobility to endless possibilities.
