

Axcess™ 6000 Series Automated Locker System

Powered by Apex Connect n' Go™ Technology

Individual compartment control for
reusable assets, tools and calibrated
instruments

AB&R®

identify. track. manage.

Secure Access

Control access based on job roles, departments, work orders and more

Versatile Configurations

Choose from 4 heights and any 3- and 6-door compartment combination to create your ideal dispensing solution

Enhanced Product Visibility

Clear doors and bright interior lighting encourage quick, accurate item selection

Supports a Wide Range of User ID

Choose from barcode, magnetic stripe, proximity cards or keypad entry

Keep Assets Charged

Compartments can be wired to allow recharging upon check-in so that devices are always ready to work

- **Secure check-out and check-in**

High-cost scanners, radios, tools and diagnostic equipment can be checked out, their usage recorded, and checked back in. You will always know when an item has been checked out, and when it was returned.

- **Automate alerts for service and loan periods**

Set loan periods for various users and devices, and receive notifications when items are overdue.

- **Protect calibrated tools and instruments**

Automate maintenance, service and calibration notifications to ensure they're always working at peak performance. Maintain time-stamped documentation of service and calibration records for quality certification programs.

1 Choose from our space-saving internal controller or versatile stand-alone controller.

2 Place lockers within easy reach with a pedestal, sold separately. Shelves are available for extra storage.

Choose from a Variety of Flexible Configurations

AXCESS 6017

Trajectory Cloud™: The Smarts Behind the Access™ 6000 Series

Our Trajectory Cloud™ platform makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can automate replenishment and set up alerts and notifications to manage service, maintenance and calibration.

Apex Connect n' Go™ Technology Makes It Easy to Implement

All Apex devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.
