

How to Pair

(New tablet with LP2824Plus printer and Bluetooth dongle)

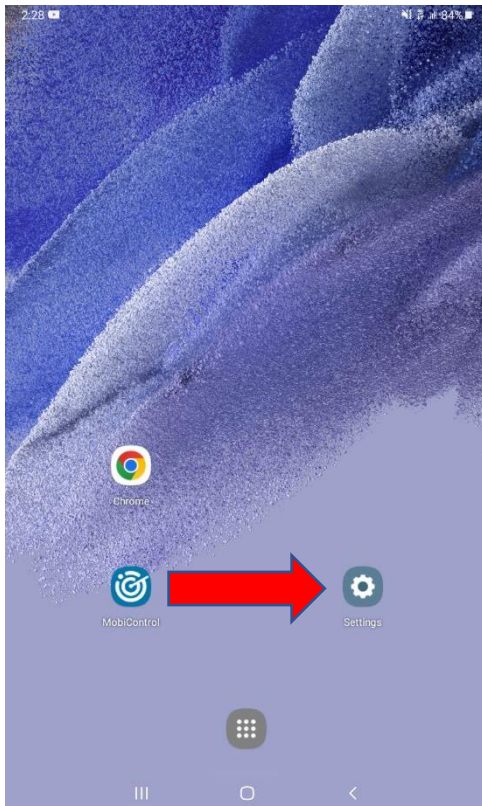

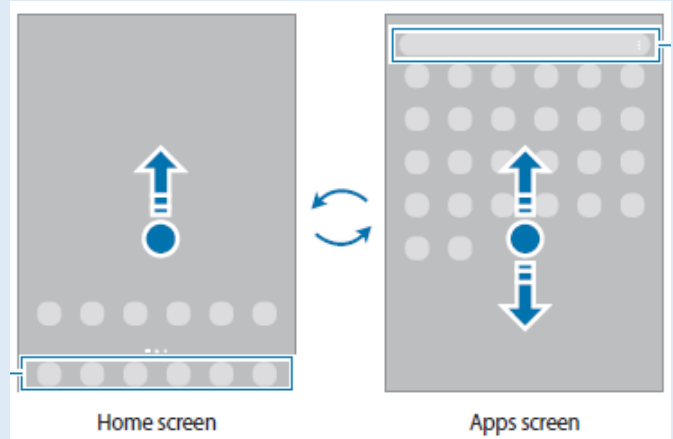

1

10 sec

Push & hold the App and
move to home screen.

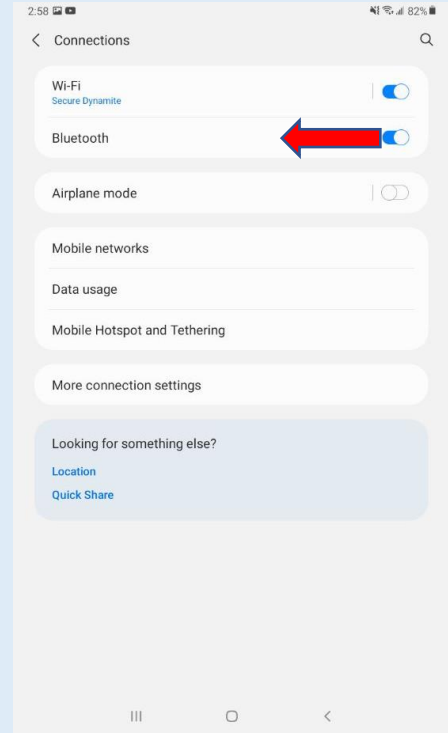

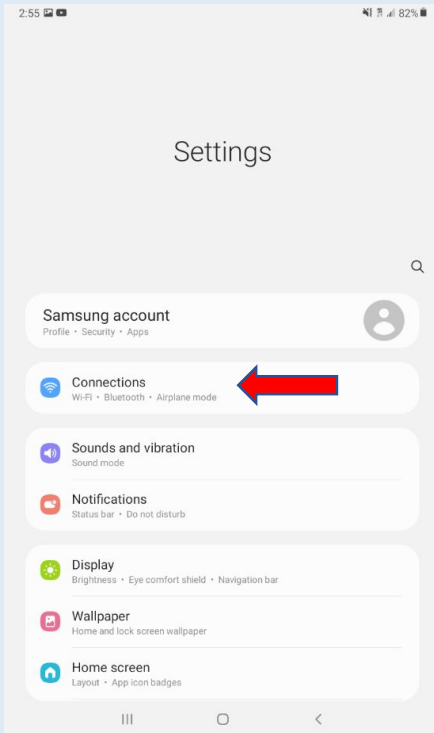

Go to Setting on the tablet.
If you do not see Setting on the tablet
screen (Home screen), swipe upward
on the tablet screen and you will be in
Apps screen.

Click the Setting and open it.

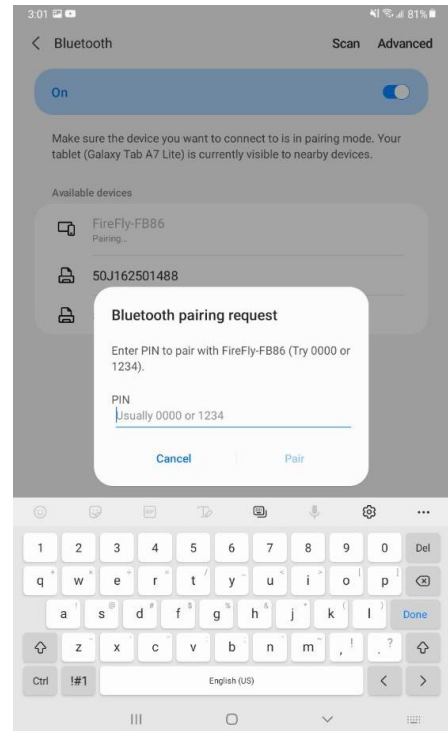

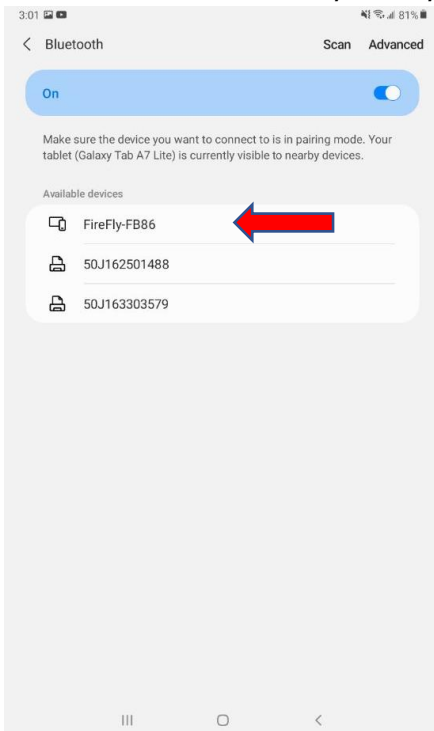

2 Click on Connection > Click on Bluetooth (make sure Bluetooth is on)

10 sec

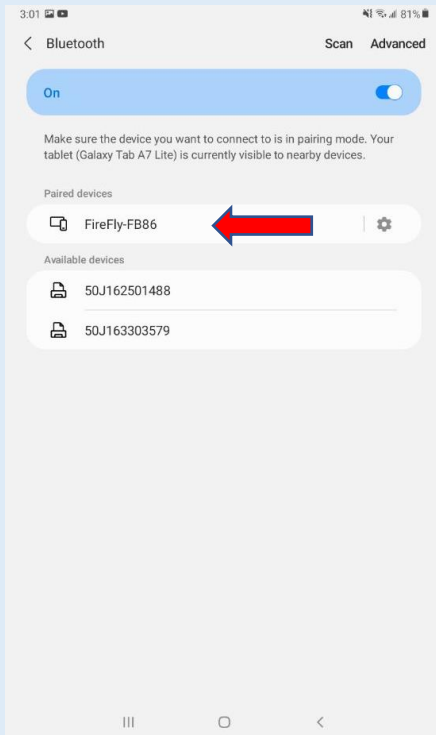

3 For Zebra LP2824Plus printer, you have to find the Bluetooth dongle on the list. Bluetooth name usually starts with Firefly or Blue snap. Select it and enter PIN 1234, then, press pair.

10 sec

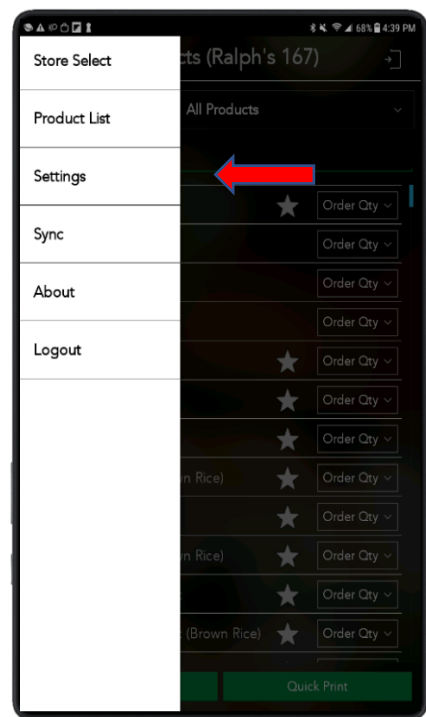

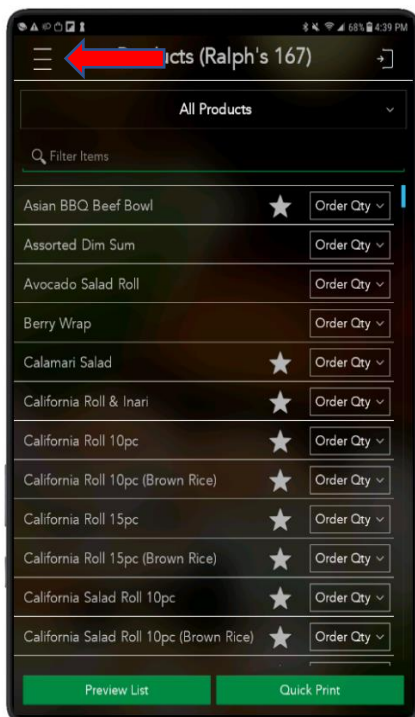

4 Once Bluetooth is paired with the tablet, you can see it under the Paired Device list. Now you can open the AFC Label application.

10 sec

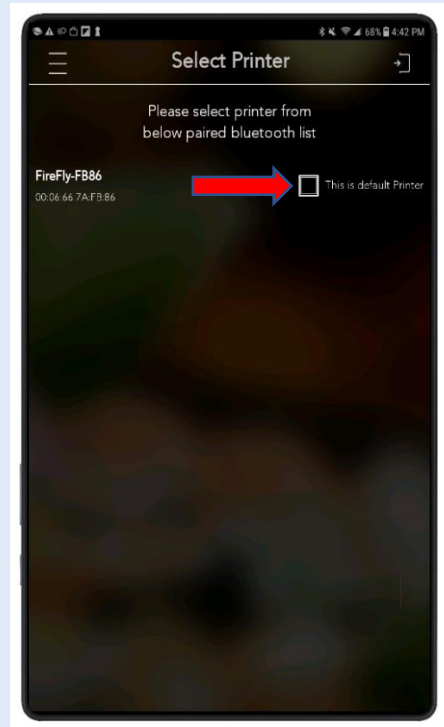

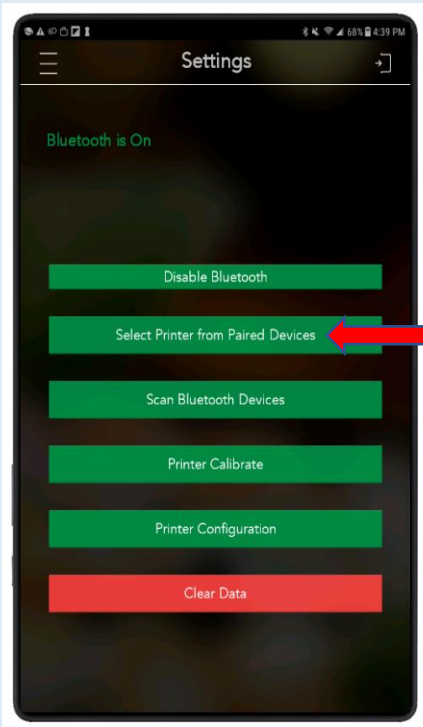

5 Click on the icon on the top left corner of the screen > Click on Setting

10 sec

6 Click on **Select Printer from Paired Devices** > Check the box, next to this is default printer

10 sec

7 Once you selected the default printer, you can start printing labels.
